## Social Engineering Workshop By Vinay Gulati – Accenture

Hosted by Cyber Security, Networking & Big Data Research Group & OWASP  
Cambridge

Wednesday 7<sup>th</sup> November 2018 13:00 – 15:00  
Compass House, Room COM109

**Social Engineering:** Is the name given to a category of security attacks in which someone manipulates others into revealing information that can be used to steal data, access to systems, access to money or even your own identity. Social engineering attacks are getting more and more sophisticated.

This interactive workshop will focus on the following objectives:

- Understand what is meant by social engineering
- Appreciate some of the different types of social engineering methods and attacks
- Learn ways of protecting yourself and your organization
- Have fun!

If interested, please register on the Eventbrite link below
