we45 Certified Web Application Security Professional (WCWASP)

After immensely successful workshops in Oman, Bahrain and Vietnam, WCWASP comes to Bangalore.

The WCWASP is a focused workshop on Web Application Security. It is meant for Web/Enterprise Application Developers, Architects, Security and Risk Professionals. It is a two day workshop that is replete with in-depth training on Web App Security, hands-on labs with a deep-dive into Web Application Security practices, best practices and so on. (Refer to our Video Trailer above for more details on the program)

Target Audiences

- ▶ Web/Enterprise Application Developers
- ▶ Web/Enterprise Application Architects
- ▶ Software Project Managers and Team Leads
- ▶ Application Quality Assurance Professionals
- ▶ Information Security and Risk Professionals
- ▶ Chief Information Security Officers
- ▶ Security Testing and Penetration Testing Personnel
