

## OWASP LATIN AMERICA TOUR 2013 – Sponsorship Opportunities

The OWASP Latam Tour objective is to raise awareness about application security in the Latin America region, so that people and organizations can make informed decisions about true application security risks. Everyone is free to participate in OWASP and all of our materials are available under a free and open software license.

We are proposing a chapters training driven model in which the courses are free for OWASP members and students, the contents are OWASP projects focused and the costs are supported by a mix of funding i.e. local chapter budget, external sponsorships, trainers sponsorship i.e. trip and/or accommodation paid by themselves and local chapter members' sponsorship i.e. taking trainers in as guests.
